GENERAL INSTRUCTIONS

This Ford Parts and Accessories Catalog contains parts information for the Ford passenger car line including Thunderbird, and is to be used in conjunction with "Illustration" Catalog, Form FD-9463.

Following are the model years for which parts information is provided in this catalog:

Chassis Parts . . . . . 1949 thru 1959
Body Parts. . . . . 1953 thru 1959
Soft Trim Parts . . . . . 1956 thru 1959

The driver's side is the left hand side of the vehicle and should govern in determining such parts as fenders, lamps, etc. as to whether a part is right or left hand.

CATALOG MODEL CODES

Codes shown in the "Text" Catalog under heading "Model" are to be interpreted as follows:

A	♦Passenger Car	F/M/2	FORDOMATIC 2 SPEED TRANSMISSION	S/C	Supercharger
A/C	Air Conditioner	M/L	Mainline	S/D	*Sedan Delivery
A/S	Air Suspension	O/D	Overdrive	S/L	Sunliner
C/L	Customline	P/I	Police Interceptor	S/T	Standard Transmission
C/M	Cruise-O-Matic	P/L	Parklane	S/W	*Station Wagon
F/L	Fairlane	P/S	Power Steering		
F/M	FORDOMATIC TRANSMISSION	S	Thunderbird		

♦ Includes parts common to Station Wagon, Sedan Delivery, Ranchero, Police Interceptor when applicable.
* Models S/D and S/W when shown separately apply to parts peculiar to Sedan Delivery and Station Wagons.

MODEL YEARS

Model year application is indicated by showing the first year followed by a diagonal line to imply continued usage in all subsequent years until the insertion of the last year of usage, which will then be inserted after the diagonal line. If no diagonal line is shown the illustration is applicable only to the year shown.

Example:	49	indicates part used 1949 model year only.
	49/59	indicates part used 1949 through 1959 model years.
	55/	indicates part used 1955 through 1959 and subsequent model years as indicated in the appropriate catalog for 1959 and up.

SECTION, GROUP and BASIC NUMBERS

For greater convenience this catalog is divided into sections to conform with the Master Parts Catalogs.

Section Numbers are related to group numbers as follows:

SECTION NUMBER	GROUP NUMBER SERIES	PART NAME
10	1000 - 1999	Wheel Parts
20	2000 - 2999	Brake Parts

The "Illustration" Catalog is divided into sections also and like parts are shown under similar numbers in both the "Text" and "Illustrations" catalogs.

Illustrations contain basic group numbers only; therefore, it is necessary to refer to the basic group within the "Text" Catalog listing for complete applicable part number.

Some basic numbers include an alphabetical character in addition to the numerical digits shown in the charts on Page VI. In this catalog basic numbers expanded by an alphabetical character follow the numerical basic numbers from which they are expanded and are listed in the manner shown below:

2150	Bolt - Front Brake Line Connection
2A150	Bushing - Power Brake Booster Lever

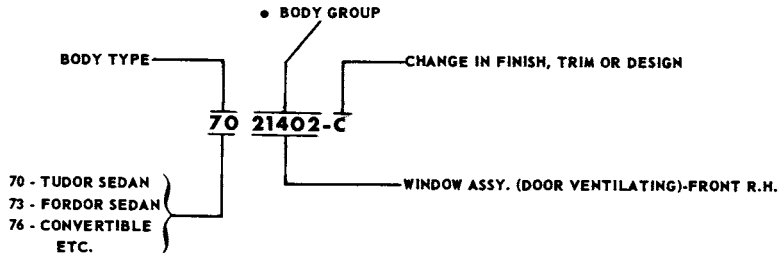
Refer to Pages VI thru IX for more information on Ford group and basic part numbers.

NOMENCLATURE INDEX

A nomenclature index appears at the beginning of each major Chassis group listed in the Quick Reference Index shown on the cover and Page I. The Body nomenclature index is shown on pages 675 thru 694 in the beginning of the body area of the catalog.

BASIC BODY PARTS NUMBERING SYSTEM

FOLLOWING IS A DIAGRAM OF THE BASIC BODY PARTS NUMBERING SYSTEM



• These five digits comprise the Body Group Numbers as used throught each body parts section.

A complete group index of body parts has been included on pages 675 through 694. The index is divided into areas of the car in alphabetical sequence; such as front, back, quarter, roof, doors, etc.

SOFT TRIM

Four sections are devoted to Soft Trim Parts, namely 1956 thru 1959. Each includes only those items which were available for service at the time of printing. To determine the complete part number of a required trim part, it is necessary to have the "Trim Scheme Code" which appears on the patent plate of the vehicle (refer to Pages XIII, XIV and XV). Soft Trim replacement parts are listed on pages 875 thru 908.

BODY TYPE CODES

Most body parts are identified with Body Type Codes. A complete listing of the codes and the body types which they represent is shown on Page XII. Body types which are similar are identified by the same code number; alphabetical suffixes are used to identify a particular body type. For instance, in 1959 Code 58 was used as follows:

BODY TYPE CODE	BODY TYPE
58A	Fairlane Town Sedan
58B	Fairlane "500" Town Sedan
58E	Custom "300" Fordor Sedan

The body type numbers only are shown on those illustrations which are applicable to all body types of a related group. For instance, Body Type Code 58 includes 58A, 58B and 58E.

CATALOG FORMAT

The format is specifically arranged to coincide with the normal procedure for selecting part numbers.

Column:

1. Model year
2. Type of vehicle or equipment within a specific model year
3. Description, size, etc.
4. Number required per vehicle
5. Complete part number

STANDARD and UTILITY HARDWARE

Standard and utility hardware, such as bolts, screws, fittings, etc. are listed below the part with which they are used. To facilitate the stocking and handling of Standard and Utility Parts by Ford dealers, locator codes are preassigned by Ford Motor Company. The locator codes are shown in parentheses immediately following or below the standard and utility part numbers.

For an example, refer to Body Section 030, Group 03086. The part number for a No. 8 x 1" cross recess oval head screw is 52344-S13 and the locator code is U292. In the catalog this item will be shown as 52344-S13(U292).

EXPLANATION OF SYMBOL ★

★ Symbol indicates part is not supplied for service due to the following:

A. Part is superseded and replaced as indicated in the description column of the text.
B. Part can be improvised as indicated in the description column of text.
C. Due to its function there would be little or no demand.

Always refer to the description column of the text for possible substitution, or for material specifications and dimension which may be helpful in obtaining the non-serviced part locally.

HOW TO ORDER PARTS

When ordering parts, always give the complete part number.
In the event the part number is not known, the following information should be included.

A. Complete description of part.
B. Model year and body type.
C. Dimension, number of teeth, size, etc.; if possible rough sketch of part.
D. If applicable to engine, transmission, axle, steering, etc.; specify type; such as 312 cubic inch, Fordomatic, Power Steering, etc.
E. Advise how shipment is to be made - Freight, Express, Air, Parcel Post.

PROCEDURE FOR USING CATALOG

Following is a recommended procedure for using this catalog:

Should an inquiry be received for a grease baffle for the brakes of a 1955 passenger model vehicle, use the following steps.

A. Refer to the section and page designated in the Quick Reference Index on the cover for "Brakes".
B. On the designated page (7) will be an index.
C. Refer to the alphabetical nomenclature under heading "Brake System"; find name Baffle (Front Grease). The group number will be shown as 2060.
D. Refer to Group 2060 and locate the year 1955 in the column head "Year". Refer then to column headed "Model" for "A" which indicated passenger car. The part number will be shown as AD 2060-C.

In the event the proper nomenclature is in doubt, an alternate method of locating basic part number would be as follows:

A. Refer to the section and page designated in the Quick Reference Index of the Illustration Catalog for "Brakes".
B. On the designated Page 28 is an index of various Front and Rear Brakes.
C. Locate the front and rear brakes applicable to 1955 which is on Page 41 of the Illustration Catalog.
D. Refer to illustration on Page 41 and identify the proper part which will show the group number as 2060.
E. Refer to Group 2060 of this catalog and locate the year 1955 in the column headed "Year". Refer then to column headed "Model" for "A" which indicates passenger car. The part number will be shown as AD 2060-C.

FORD GROUP AND BASIC PART NUMBERS

GENERAL INSTRUCTIONS

This Ford Parts and Accessories Catalog contains parts illustrations for the Ford passenger car line including Thunderbird, and is to be used in conjunction with "Text" Catalog, Form FD-9462.

Following are the model years for which illustrations are provided in this catalog:

Chassis Parts	1949 through 1959
Body Parts.	1953 through 1959
Soft Trim Parts	1956 through 1959

The driver's side is the left hand side of the vehicle and should govern in determining such parts as fenders, lamps, etc. as to whether a part is right or left hand.

MODEL YEARS

Model year application is indicated by showing the first year followed by a diagonal line to imply continued usage in all subsequent years until the insertion of the last year of usage, which will then be inserted after the diagonal line. If no diagonal line is shown the illustration is applicable only to the year shown.

Example:	49	indicates part used 1949 model year only.
	49/59	indicates part used 1949 through 1959 model years.
	55/	indicates part used 1955 through 1959 and subsequent model years as indicated in the appropriate catalog for 1960 and up.

SECTION, GROUP and BASIC NUMBERS

For greater convenience this catalog is divided into sections to conform with the Master Parts Catalogs.

Section Numbers are related to group numbers as follows:

SECTION NUMBER	GROUP NUMBER SERIES	PART NAME
10	1000 - 1999	Wheel Parts
20	2000 - 2999	Brake Parts

Refer to Pages VI and VII for more information on Ford group and basic part numbers.

The "Text" Catalog is divided into sections also and like parts are shown under similar section numbers in both the "Text" and "Illustrations" catalogs.

Illustrations contain basic group numbers only, therefore, it is necessary to refer to the basic group within the "Text" Catalog listing for complete applicable part number.

Some basic numbers include an alphabetical character in addition to the numerical digits shown in the charts on page VI. In the "Text" Catalog basic numbers expanded by an alphabetical character follow the numerical basic numbers from which they are expanded and are listed in the manner shown below:

2047	Nut - Brake Adjusting Screw
2A047	Hose - Power Brake Booster Reservoir to Manifold

PROCEDURE FOR USING CATALOG

Following is a recommended procedure for using this catalog:

Should an inquiry be received for a grease baffle for the brakes of a 1955 passenger model vehicle, use the following steps.

A. Refer to the section and page designated on the cover or in the General Index on Page VII for "Brakes".

B. On the designated page (28) is an index of various brake types and systems.

C. Refer to the "Front and Rear Brakes" and locate the 1955 brake as applicable.

D. Refer to illustration on Page 41 and identify the proper part which will show the group number as 2060.

E. Refer to Group 2060 in the "Text" Catalog, Form FD-9462, and locate the year 1955 in the column headed "Year". Refer then to column headed "Model" for "A" which indicates passenger car. The part number will be shown as AD 2060-C.

BODY TYPE CODES

Various body illustrations are identified with Body Type Codes. A complete listing of the codes and the body types which they represent is shown on Page X. Body types which are similar are identified by the same code number; alphabetical suffixes are used to identify a particular body type. For instance, in 1959 Code 58 was used as follows:

BODY TYPE CODE	BODY TYPE
58A	Fairlane Town Sedan
58B	Fairlane "500" Town Sedan
58E	Custom "300" Fordor Sedan

The body type numbers only are shown on those illustrations which are applicable to all body types of a related group. For instance, Body Type Code 58 includes 58A, 58B and 58E.

CATALOG MODEL CODES

Codes shown in the "Text" Catalog under heading "Model" are to be interpreted as follows:

A	♦Passenger Car	F/M/2	FORDOMATIC 2 SPEED TRANSMISSION	S/C	Supercharger
A/C	Air Conditioner	M/L	Mainline	S/D	*Sedan Delivery
A/S	Air Suspension	O/D	Overdrive	S/L	Sunliner
C/L	Customline	P/I	Police Interceptor	S/T	Standard Transmission
C/M	Cruise-O-Matic	P/L	Parklane	S/W	*Station Wagon
F/L	Fairlane	P/S	Power Steering		
F/M	FORDOMATIC TRANSMISSION	S	Thunderbird		

♦ Includes parts common to Station Wagon, Sedan Delivery, Ranchero, Police Interceptor when applicable.

* Models S/D and S/W when shown separately apply to parts peculiar to Sedan Delivery and Station Wagons.

CARBURETOR CATALOG SYMBOLS

Some illustrations in Section 95 are identified with carburetor catalog symbols. The carburetor catalog symbols are identical with the carburetor parts list numbers shown in the Carburetor Identification Chart in Section 95 of the "Text" Catalog, Form FD-9462, and apply to the same carburetors.

EXPLANATION OF SYMBOL ★

★ Symbol indicates part is not supplied for service due to the following:

a. Due to its function there would be little or no demand.
b. Part can be improvised as indicated in the description column of "Text" Catalog.

HOW TO ORDER PARTS

When ordering parts, always give the complete part number.
In the event the part number is not known, the following information should be included.

A. Complete description of part.
B. Model year and body type.
C. Dimension, number of teeth, size, etc.; if possible rough sketch of part.
D. If applicable to engine, transmission, axle, steering, etc.; specify type; such as 312 cubic inch, Fordomatic, Power Steering, etc.
E. Advise how shipment is to be made - Freight, Express, Air, Parcel Post.
